FBI recruiting, entrapping kids with AUTISM to function as terror PATSIES

In the name of national security, the Federal Bureau of Investigation (FBI) has begun [recruiting autistic children](#) to entrap them in the deep state's manufactured terror plots.

The Department of Justice (DoJ), using U.S. taxpayer dollars collected by the Internal Revenue Service (IRS), is spearheading the FBI's targeted recruitment campaign, which entrapped a young autistic man named Humzah Mashkoor in a fake terror plot involving ISIS and the Middle East.

ADVERTISEMENT

When Mashkoor was just 16 years old, he had been talking online to at least four different people whom he believed were members of ISIS. A DoJ criminal complaint states that these four people were actually undercover FBI agents whose job it was to target vulnerable kids like Mashkoor.

Mashkoor's online activities came on law enforcement's radar in November 2021 when they discovered his interest in ISIS. Instead of notifying Mashkoor's family, the FBI proceeded to have its spooks fake-befriend him until he became a legal adult, after which they groomed him to try to fly to the Middle East to join the Islamic State.

When Mashkoor showed up and cleared security at Denver International Airport, the FBI was waiting to arrest and charge him with terror-related crimes. At the time of Mashkoor's arrest, a relative stated in court that the boy was reading "Diary of a Wimpy Kid" as a young adult, even though the book was written for elementary-age children.

"It is appalling that the government never once reached out to his parents, even while they were sending undercover agents to befriend him online starting when he was 16 years old," said Joshua Herman, Mashkoor's defense attorney.

"Almost all of the conduct he is alleged to have committed took place while he was a juvenile."

(Related: The 9/11 false flag terror attack on the World Trade Centers was [pulled off](#) by patsy hijackers that were recruited by the Central Intelligence Agency [CIA].)

The FBI as Bread and Circus ringleader

Though appalling, none of this is all that surprising when considering the fact that the FBI does this kind of thing *all the time*. It is standard procedure for the corrupt federal agency to use and abuse American children to advance the goals and agendas of the globalists.

The FBI is not in the business of actually fighting crime. Instead, the agency *manufactures* fake crime, sets children up as patsies and comes to the "rescue" just in the nick of time to prove its legitimacy.

"Why would the FBI agents try to prevent crime when they can get a promotion out of egging it on?" asks Ben Bartee of *Armageddon Prose*. "There's no money or prestige in quietly extinguishing terror in the womb ... What they need to sell to the masses is spectacle – Bread and Circus."

Bartee explains the *modus operandi* of the FBI and other federal spooks as follows:

- 1) Recruit a mentally ill patsy
- 2) Load him up with cash and bad ideas
- 3) Manufacture a terror plot to entrap the patsy
- 4) Swoop in to save the day from the very threat the feds created in the first place
- 5) Use the alleged foiled terror plot to bargain for a fatter budget to do it all over again

This merry-go-round of manufactured terror never stops, and always seems to get faster. None of this would have been possible were it not for the manufactured "war on terror" that was unleashed by the George W. Bush regime following 9/11.

"Ah yes, this is what Julian Assange described as the 'FBI Business Model,' but at a time when mentally challenged Muslim immigrants were their favored 'marks' for this budget-development strategy," wrote a commenter on Bartee's recount.

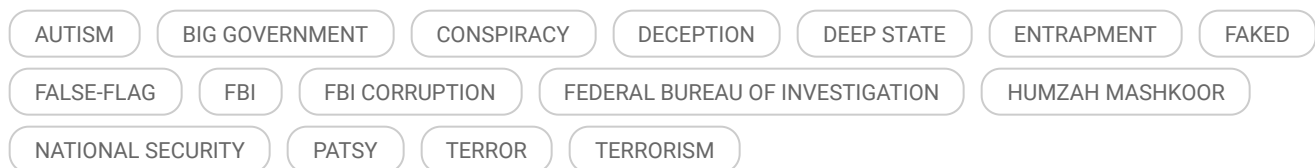

The U.S. military-industrial complex must be disbanded, otherwise this type of insanity will continue. Learn more at [FBicorruption.news](https://fbicorruption.news).

Psych has 50 shades as well. These are not autistic/nonverbal kids with fecal incontinence masturbating at a fast food restaurant - only good for draining accounts. These are high-functioning psychotic teens with Asperger's Syndrome. The problem is they
